Project Lead the Way?

What is PLB?

Students will now be able to choose an elective topic from those we currently offer, or have one of their own choices approved! Woodside will have two teachers and 30-50 students all taking the elective of their choice in a personalized, blended learning environment! Students will no longer be limited to the elective that fits their schedule. Not only will our students love the autonomy this affords them, they will have the opportunity to create an experience that is uniquely their own.
